

Job Opportunity

Mechanical Engineer Apprentice

The **Estates Department** is looking to recruit a motivated and enthusiastic person to train and develop as a Mechanical Engineer Apprentice.

You will be involved in the day-to-day mechanical maintenance of associated building services, at the Royal Devon & Exeter Hospital and other locations within the boundaries of the Trust.

You will form part of an experienced, dedicated and friendly department, working primarily on non-patient attached medical infrastructure, the mechanical building services equipment, the on-site production Laundry unit and energy power plant.

The training provider will be Exeter College and the appropriate day release for training and exams will be part of your working week. On completion you will be qualified to carry out the duties of a newly qualified hospital maintenance mechanical craftsperson attaining an **NVQ3** and a **BTEC qualification**.

Salary will commence at **£13,610** with yearly increments up to final year of **£17,017**, working 37.5 hours per week, with an annual holiday allowance of 27 days.

Key Entry Requirements - GCSE Qualifications to include Maths, English and Science to Grade 4 (C) or recognised equivalent
