

Are you looking to start University this year?

Are you interested in science in medicine?

Are you looking for a long term career in the NHS?

If the answer is yes to all these questions then we have an opportunity not to be missed!

Plymouth NHS Hospital Trust will be offering 3 candidates the chance to train in a number of disciplines across the field of Medical Physics including Nuclear Medicine, Radiotherapy Physics and Radiation Physics. The bespoke training package will consist of

- Guaranteed training work placements as required by the University
- 50% tuition fees for years 2 & 3
- £3000 per year bursary to assist with travel and accommodation
- 4 weeks of paid work during the Summer period
- A one year contract at band 5 (£22128) on successful completion of training.
- The Trust is unable to make a forward commitment, however the intention would be to subsequently offer substantive employment subject to satisfactory performance.

In return you are expected to

- attend a 3 year vocational degree course in Healthcare Science at Swansea University
- attend your work placements when not at University
- complete and pass each academic year

More details on the job role and career pathway for Practitioners working in Medical Physics careers in the NHS can be found at.
