

Creative Studies Craft – V Cert

Design & Technology

Qualification:
NCFE

Is this course for me?

The course aims to use a broad and comprehensive understanding of craft and develop a significant knowledge core which spans the vocational sector and will also provide academic and study skills that will support progression within craft and more broadly.

This qualification is designed for learners with an interest in craft and will be delivered in a variety of contexts. Examples we will use will include wood crafts, product design, metal craft etc. Students will be enthused and challenged by the range of practical activities possible as the specification seeks to build upon the multimedia approach.

What does the course involve?

- It will involve you using raw materials, tools and equipment in a safe and competent manner
- Develop analytical and research skills
- Enable you to evaluate your own work, develop ideas and learning through the craft process
- Develop and understanding of health and safety considerations in the craft environment
- Develop an overview of enterprise skills and characteristics present in successful enterprising individuals
- Develop communication skills through a range of media

How will my work be assessed?

To be awarded the NCFE Level 2 Certificate in Creative Studies: Craft, learners are required to successfully complete four mandatory units. The assessment for the NCFE Level 2 Certificate in Creative Studies: Craft consists of two types of assessment:

- **Internal assessment** - portfolio of evidence. This will be graded by centre staff and externally moderated by NCFE.
- **External assessment** – assignment. This will be graded by NCFE. Learners must be successful in both types of assessment to achieve the qualification.

What courses can this lead to at Post 16?

Product Design A Level.
