

# Mathematics

Qualification:

Edexcel functional skills

Is this course for me?

A small number of students study this course. It is a course that prepares you for GCSE. Students on the Core & Vocational Learning Programme may follow this course.

What does the course involve?

Three main areas of mathematics are studied:

- Representing – selecting the mathematics and information to model a situation
- Analysing – processing and using mathematics
- Interpreting – interpret and communicate solutions to practical problems

How will my work be assessed?

Students will follow the Edexcel Functional Skills course. Students will be entered at the appropriate level, at the appropriate time, by their class teacher. All units are externally marked, a pass for each unit is 75% of the marks awarded.

Entry Level 1	1 hr long	
Entry Level 2	1 hr long	
Entry Level 3	1.5 hr long	
Level 1	1.5 hr long	
Level 2	1.5 hr long	

What courses can this lead to in Post-16?

Students who achieve well, may then carry on to a GCSE in mathematics, The Edexcel / Pearson, Linear course, foundation level.
