

ATTENTION YEAR 10 STUDENTS!!!!

Year 10 tutors please hand out to students.

This is an opportunity not to be missed!

How would you like to go to HM Naval Base Devonport to visit the major apprentice recruiter who do all this?

Equipment

Warships And Submarines

Naval Base Management

Submarine Equipment

Surface Ship Equipment

Equipment Management

Queen Elizabeth Class Aircraft Carrier

Responsible for over 50% of the detailed design work on the biggest warships ever constructed in the UK, Babcock is proud to say we are a member of the Aircraft Carrier Alliance team

THIS, is Babcock International!

And **THIS**, is one of the exciting experiences we will give your Year 10 students when they climb aboard Routes into STEM Plymouth!

So what's it all about?

Routes into STEM is a fantastic opportunity for your Year 10 students that will help them to understand the wide range of career opportunities available to them in Science, Technology, Engineering and Maths (STEM) and show them how they can get there. So if they already have an interest in these subjects, this is definitely for them!

We'll show them a day in the life at City College, Plymouth University, and the amazing Babcock International at HM Naval Base in Devonport. They'll meet apprentices, graduates and employees, meet fellow Year 10 students with similar interests from schools in your area and take part in fun, team building and challenging activities.

What's more, they will also earn a Bronze level [Industrial Cadets](#) award, inspired by HRH The Prince of Wales!
