

KEY WORDS:

War → Fighting between nations to resolve issues.
 Peace → An absence of conflict and fighting.
 Justice → Bringing about what is right and fair.
 Holy war → A war fought in the name of religion.
 Weapons of Mass Destruction → WMD - weapons that kill large numbers indiscriminately.

Nuclear Weapons:

Debate: Should countries have weapons capable of such destruction?

Do they act as a good deterrent?

Should we take into account the destruction of the environment

At the moment, there is a civil war in Syria. Many countries in the world are involved. Some chemical weapons have been used.

Just War Theory:

They used internationally to figure out if a potential war is justified. It gives conditions such as:

- Is the war declared by the right authority?
- Is there a good reason for the war?
- Not greed or revenge.
- Is there a good chance of success?

Many have argued that WW2 was justified as it was important to remove the threat of Hitler and the Nazis.

KEY WORDS:

Protest → An expression of disapproval.
 Terrorism → The use of violence against innocent people to incite fear for a particular cause.
 Radicalisation → The process of causing someone to accept radical positions on political + social issues.
 Extremism → Holding extreme political or religious views.

Terrorism:

A very extreme form of protest. Use of violence to spread fear. Not supported by any religions. Causes widespread destruction and destruction.

What is worth fighting for?

Radicalisation:

Extreme religious or political groups attempt to convert others to their cause. They may do this online and persuade others to join them.

Protest:

→ A right to protest in the UK - but not violently.
 → Fearful Protest can turn violent if people feel threatened.
 → A riot is an out of control protest.

Examples:

- MLK - peaceful protest to increase black rights
 - Bonhoeffer - allow violence to remove bigger issues - Hitler.
